

FileMaker Go Product Briefing

Join us as Richard Carlton and Phil Smith discuss the new possibilities for FM Go!

Richard Carlton Consulting, Inc. and FileMaker, Inc. are hosting a series of product briefings, highlighting the great new features of FileMaker Go. FileMaker Go is the new software that allows FileMaker databases to run natively on the iPhone and iPad devices. Come join us for an informative and entertaining presentation, with a live demo of FileMaker Go, discussion on mobile deployment strategies, database tuning for mobile devices, and directed workflow applications for mobile users. Attendees will see FM Go solutions in use by other customers, and learn about the free educational resources available for this new platform. The FileMaker Go Product Briefing is free of charge and open to anyone interested in learning more about FileMaker running on mobile devices.
